

WHAT PARENTS ARE SAYING...

I can't imagine a more caring and loving preschool than St. Andrew's. The teachers honestly love working with preschoolers – and it shows.

- They go above and beyond your expectations in everything they do.
- They study fun topics so the kids don't even realize they are learning.
- The teachers decorate the classroom from top to bottom for each theme, and incorporate new things to discover, touch and experiment with for each lesson.
- Beautiful crafts are created.
- And most importantly, God is woven into each lesson and discussion.

All three of my kids have loved preschool and can't wait to go to class each day. I believe the Preschools of St. Andrew's to be one of the very best preschools in our area and I highly recommend it to anyone.
Greta B.

All three of our children attended the Preschools of St. Andrew's and the experience consistently exceeded our expectations. They perfectly balance academics, creativity and fun and everything they do has love behind it.

The teachers are amazing and a Christian focus provides the best foundation for young learners. We love St. Andrew's preschool!
Renee L.

We have been thrilled with our experience at the Preschools of St. Andrews! Our daughter has thrived developmentally, spiritually and academically. She loves going to school each day and is eager to learn and play with her teachers and her classmates. Her transformation from toddler to almost-kindergartner over the past 2 years has been incredible to watch! My husband and I especially love the time the teachers take each day to address the parents and communicate the activities of the school day. No other preschool we looked at offered this type of daily face-to-face communication. We've found it to be not only a great way to learn what is going on in the classroom, but also a great way to meet and interact with the other parents.

And although we are not members of St. Andrew's Lutheran Church, our family has always felt extremely welcome in the community. In addition to the half-day preschool program, we have taken advantage of so many of the wonderful offerings at St. Andrews including the Spirited Feet dance class and the Three for Me program (formerly Mom's Out Morning).

We highly recommend the Preschools of St. Andrews and look forward to coming back in 2 years when our son is ready for preschool.
Christy F.

This is our daughter's second year at the Preschools of St. Andrew's. We could not be happier with our experience. Our daughter is learning all of the academic skills she will need to prepare for kindergarten. Just as important, she is learning these academic and social skills in a caring Christian environment.

The children at the Preschools of St. Andrew's have a rich array of resources available to them- -Spanish, music, chapel with the St. Andrew's pastoral staff, field trips to places like Orchestra Hall, and much more. Students meet with their "grandfriends" each month at the St. Andrew's Village which is one of our daughter's favorite activities.

The teachers are incredibly talented and supportive people. Our daughter never wants to miss school and mentions her two teachers as her favorite part of school. We love hearing what happens in the classroom every day after class and are amazed by the creative and well-rounded education our daughter receives.

We have really enjoyed getting to know the wonderful group of students and parents during activities and programs inside and outside of class. We feel like the environment at the Preschools of St. Andrew's is an incredibly positive influence on our daughter's development (as a student and human being) and are truly thankful!

Carlise S.

It has been such a pleasure to have my daughter attend the Preschools of St. Andrew's the past two years. I feel truly blessed with all she has learned in the classroom and in her Music and Spanish classes. Her understanding of faith and the importance it plays in her life shows more day after day.

What a great campus with a full gym and the opportunity for the children to do art projects with the "grandfriends". These opportunities are rare to find at preschools and St. Andrew's provides all of them. I believe she is fully prepared to enter Kindergarten and I owe that all to the dedication of the staff at St. Andrew's.

Elke O.

This is our third child to attend St. Andrew's Preschool. We keep coming back because we feel that they are well prepared to for kindergarten, both socially and academically. We also keep coming back because of the teachers. It is obvious how much they love and care for our children.

Mindy R.

The Preschools of St. Andrew's has been a wonderful experience for our son. He not only learns the typical preschool things, but also Spanish and about Jesus. Each day he comes home from preschool he has a new story to tell us. St. Andrew's has truly been a blessing to our family.

Victor & Brittanie G.
